- ACTIVATION OF THE WIRELESS COMMUNICATIONS BETWEEN THE WEIGHING SYSTEM, THE CONTROL DESK AND THE PRINTER
- EASY START UP DUE TO SIMPLE AND EFFECTIVE ERGONOMICS.

## INTRODUCING YOU ITS WEIGHING SYSTEMS

OUR EQUIPMENTS WILL GO UP TO YOUR EXPECTATIONS. INNOVATIVE AND WIRELESS, OUR SYSTEMS ARE EASY TO INSTALL AND USE.

## STEELYARD PESON

is an innovative company specialized in weighing system. To answer to users and fitters expectations, we designed a reliable, resistant, easy to install and use system. It is wireless, without electrical connections or hydraulic duct.

A waterproof screen with keys allows an excellent visibility and an easy use. Its battery with large autonomy provides months of use. The STEELYARD PESON precision allows to optimize your loadings and to enhance your productivity.

**OUR PRODUCTS HAVE A 1 YEAR WARRANTY.**

Due to its strength and liability, our range of products can be used in many sectors of activities but more particularly in forest area.

## 4.0 TONS WEIGH SYSTEM

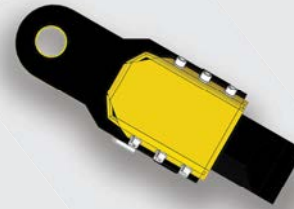

Recommended for forest cranes from 6T/m to 17T/m, the 4 tons weigh system is the most compact (330mm between axes) of the range. Its small size allows using it for small length pieces of wood or waste.

## 8.0 TONS WEIGH SYSTEM

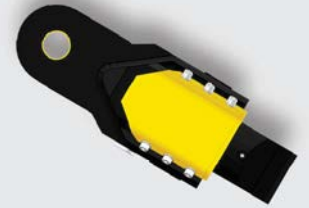

Designed for forest cranes from 18T/m to 30T/m, and excavators until 25T. It is ideal to load long timber.

## 16.0 TONS WEIGH SYSTEM

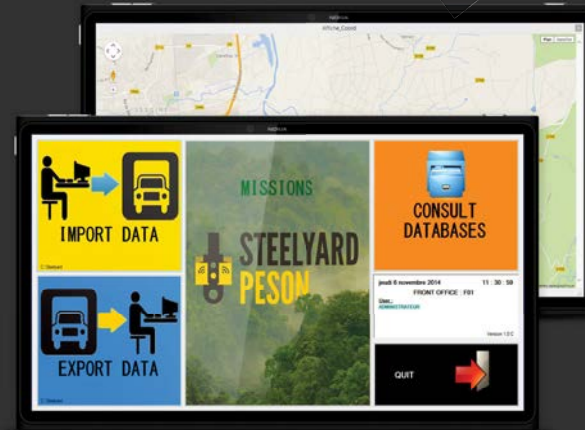

Strengthened design for forest cranes from 30T/m to 55T/m, and excavators until 40T. It is perfect to carry on large timber.

## STEELYARD PESON IT IS ALSO "NUMERICAL WEIGH"

An embedded application on digital tablet dematerializes the data and allows to have a numerical ticket.

It is also a centralized application able to help in management tasks with practical and communicative tools.

## INSIDE ALUMINIUM CONTROL

INSIDE ALUMINIUM CONTROL  
DESK FIXED IN A STEEL SUPPORT  
EASY READ AND OPTIMUM  
ERGONOMICS

## YOU WILL HAVE A DURABLE SOLUTION

- Wireless, without electrical connections nor hydraulic duct, ours systems are mass produced.
- Without any solders and anti-corrosion, the weighing system soul is protected by steel casings
- Optimize the loadings, save time and accuracy, avoid differences...
- Ours systems are designed to be efficient, durable, and without any maintenance, for the total satisfaction of our customers.
